## **Downtown Bridge and Retaining Wall Project CALL FOR PARTICIPATION**

The Town is beginning the planning process for the design and engineering of the Bridge and Retaining Wall construction project and is seeking participation in four citizen task forces that are being formed to help guide the consultants in this process:

- (1) **Traffic Management:** how the traffic into and through the Downtown will be managed, assessment of alternate routes, etc.
- (2) **Communication & Information:** how the residents and travelers will be made aware of and kept up-to-date on the status of the project, including information on specific traffic routing.
- (3) **Downtown Events Information:** the preparation of a Master Events calendar for the months covering the construction period so that construction activities can be adjusted accordingly to have the least impact on the event.
- (4) **Aesthetic/Historic Considerations:** consideration of the final design of the bridge and the retaining wall and any other features associated with the project.

For more information please contact either Laura Norton at the above telephone number or by email at [lnorton@townofpeterborough.us](mailto:lnorton@townofpeterborough.us).
