
ASSESSING 2018 REPORT

The Assessing Department is responsible for discovering, listing and valuing all property in the Town of Peterborough. This responsibility involves the recording of deeds and transfers, maintaining the sales book, processing abatements, various exemptions and credits, as well as the processing of intents to cut and excavate and organization of approved building permits and properties that need to be inspected. Other duties include the oversight of current use properties and land use changes. Our goal is to make sure the taxpayers of Peterborough receive fair and equitable assessments each year.

Personnel from the Assessors Office are continually collecting data on properties in the Town. Each property is inspected, by law, at least once in every five years. This is an important part of the assessment process for incorrect data can lead to incorrect assessments.

We encourage all taxpayers to review the data on file for their property when you have the opportunity. If any questions or discrepancies are noted, please bring them to the attention of the assessing office personnel. We remain open to any and all observations as to how we may better serve you. Detailed property information can be found on the Town's website-Enhanced Online Parcel Viewer.
