**PRESS RELEASE**

FOR IMMEDIATE RELEASE

**Peterborough Fire & Rescue confirms four (4) members test positive for SARS-CoV-2 (COVID-19)** – The Peterborough Fire & Rescue Department has announced that four (4) members of the department have tested positive for COVID-19. This past week one of our call firefighters developed symptoms consistent with COVID-19 and was tested. Upon receiving a positive test result, he notified the department, and we began the process of identifying those members with whom he has had close contact. Subsequently three (3) additional members have tested positive, two of whom are asymptomatic.

Beginning with the initial confirmed case, we have been following the State of New Hampshire's [First Responder Unprotected Exposure Guidelines](#). Based on this guide, we have a total of 12 members who are currently in quarantine or isolation. As per department policy, and the statewide Emergency Medical Services Protocol, our staff wear N95 masks when interacting with patients at emergency scenes. This virtually eliminates any risk of patient exposure.

Since the first positive case we have been working with Monadnock Community Hospital's Infection Control Preventionist and COVID Congregate Settings Investigation Unit of the New Hampshire Department of Health and Human Services (DHHS) to not only evaluate any potential exposures, but also ensure we continue to follow best practices. Currently both the hospital and DHHS are confident that we are following best practices and are taking the necessary steps to keep our remaining providers and the community safe.

Despite the providers we have out, with over 60 members on our roster we remain confident that we can continue to deliver the same level of high service that our customers have come to expect from Peterborough Fire & Rescue.

**Re: Request for Information on Broadband Coverage in Peterborough, New Hampshire**

---

The Town of Peterborough is requesting broadband coverage information to determine the unserved locations in town as defined by RSA 38:38, I (c). An unserved location is defined as a location that does not have access to at least 25 Mbps download/3 Mbps upload speeds (25/3). The location does not need to be subscribing to this service, but the service must be available at the street location. You may provide either a list of unserved addresses or a list of served addresses to meet this request. Per SB170, you have 60 days to respond to this request. The preferred response method is a list in a spreadsheet format with specific addresses itemized and whether those addresses have the required service available.

The Town of Peterborough is making this request following the requirements of SB170 to enable the pursuit of the option of the Town Bonding upgrades to the Broadband Infrastructure to meet the 25/3 specification. Once information has been received or the period of 60 days has lapsed, the Town will issue a Request for Proposals (RFP) for improving Broadband Infrastructure from all providers who would consider entering into a public-private partnership with the Town of Peterborough.

We appreciate your prompt reply to this request and look forward to receiving this information. If you have any questions, please contact me by email or phone listed below.

Thank you,

Karen Hatcher  
Community and Economic Development Coordinator  
For the Peterborough Board of Selectmen

Good Morning Sharon,

We will certainly add this to an upcoming Select Board meeting agenda.

Thank you,

Tyler

Dear Tyler Ward, Bill Tayler, and Ed Juengst:

I am writing to you to request that an upcoming Select Board meeting have on the Agenda an Explanation of the New Communication with the Select Board Policy Protocols for the public.

I have attached the new Form Letter email response that I understand some others have received, and others have not received any response. An example of the form letter from the most recent Selectboard packet is attached. It is also on the Town website.

If you could explain to the public what this new procedure is that allows citizen communication access with the Selectboard, it would be greatly appreciated.

Also, what does it mean when a citizen's communications are not in receipt of an acknowledgement form letter or printed in the Select Board Packet?

As you may recall, it was only last October of 2019, that the Administration responded to my request that the Town Website allow electronic access via a select board email address since there was no means for citizens to communicate with you directly other than through the Administration email. I am concerned that the "new policy" has reverted to that again and hoping you can clarify.

Given that there is supposed to be a distinction between the Town Administrator's office and the Board of Selectmen, have you considered having an administrative assistant that solely deals with all Select Board matters?

Thank You  
Sharon Monahan

**MEMO**

To: Select Board  
From: Nicole MacStay, Deputy Town Administrator  
Date: October 16, 2020  
RE: Proposed Development of Evans Flats Parcel

Currently, the town-owned parcel of land located off of Elm Street and Evans Road (commonly referred to as Evans Flats) is home to the municipal facility campus which includes the Public Works Garage, the Community Center and the Maintenance Garage, which is the proposed location of the future Fire Station and ultimately a Public Safety Facility. The portion of this parcel accessible from Evans Road is used by the Public Works Department as a location to dump snow removed from downtown following winter storms.

At the Board's August 4, 2020 meeting, Hope Taylor and Peter Laroche presented a proposal to develop affordable housing on the portion of the property accessible from Evans Road. Other proposals for reuse of that portion of the town's property have also been brought to staff recently, including a proposal to develop the property for elderly housing for persons with modest means. The various studies of the property completed in the last fifteen years have generated other ideas including recreational facilities, low-income housing managed through a housing authority, and outright sale of the property to offset the cost of other capital projects.

Before considering what could be done on that piece of land, the Board must first decide if they wish to do anything with that property at this time. If the Board does wish to move forward and consider proposals for the use of the property, the Board has three general options for how to proceed. Regardless of the path chosen, these processes all require a substantial amount of time to allow for public input at every stage. The three options are:

- Retain ownership of the property and develop it for town use, either as a town facility (e.g. recreation fields) or for development under a housing authority.
- Lease the property to others for development, with restrictions on how it can be used.
- Sell the property with a deed restriction requiring that the property be developed in compliance with an approved plan.

The first step in any of these scenarios would be to determine if are any deeded restrictions which already exist on the land which may prevent or limit a use through a title search. If such a restriction exists, the Board may need to go through a *cy pres* process, as it did when it looked to clear the deed of the GAR Hall for sale.

***Town Retains Ownership and Develops the Property.*** As stated before, some of the studies conducted in the last fifteen years included proposals to develop the property for recreation fields and facilities, or to work with or establish a housing authority to create low-to-moderate income housing on the property. Past Select Boards did not express an interest in pursuing these options, so they have not been fully studied. Should the Select Board wish to explore development options, this could be discussed and, if viable, worked into an upcoming budget process.

***Town Retains Ownership and Leases the Property.*** As stated earlier, the most recent proposal for use of the property asked the Select Board to consider entering into a long-term lease. A long-term lease of the property has many complications and questions that would need to be answered:

- Any lease over five years in length must be approved of by Town Meeting (RSA 41:11-a). This was done most recently when the Solar Array was constructed at the Wastewater Treatment Facility.
  - What would happen at the end of the lease?
    - Who would own the homes?
    - Would the structures have to be removed?
- As lease holders, the town would be obligated to keep the property safe at all times, and would be obligated to keep the property clear of dangerous trees, etc.
  - Any serious injury or harm incurred on the property would leave the town liable for damages.
- What are the annual costs of maintaining leased property?
  - Staffing
  - Insurance costs
- What are the tax implications of leasing the property for residential or commercial use?
  - Who pays the property taxes?
  - Are there state or federal tax considerations?

If the Select Board and the voters at Town Meeting were to consider a long-term lease of the property, a public process to determine to whom the property would be leased and for what purpose would still be required.

***Town Sells the Property for Development.*** The Select Board has the option of selling the property for development. Recently the Town has sold the GAR Hall through the RSA 41:14-a process, which requires multiple steps:

1. The Select Board must decide, in an open meeting, if they wish to consider selling a portion of the town-owned land located off of Elm Street/Evans Road.
  - a. If so, whether or not the Select Board has to subdivide the property at this stage or at the end of the process must be determined. Either way, the funds required to survey the property would have to be found somewhere in the budget or would have to be included in the FY 2022 budget (and thus not available until after 7/1/21).
2. The Select Board then must solicit input on the proposal to sell the property from the Conservation Commission and the Planning Board.
3. After they have received the input from the Conservation Commission and the Planning Board, the Select Board must hold two public hearings on the proposal to sell the property. The public hearings must be posted in advance and held at least 10 but not more than 14 days apart.
4. After the public hearings, the Select Board must hold another meeting at least 7 but not more than 14 days after the second public hearing, and vote on the question of whether to sell the property.
5. After that, the Select Board must determine how the property will be sold. This must be a fair process and open to anyone from the public who may have interest in purchasing the property; the Select Board cannot preselect a preferred partner. In the recent past we have followed three different processes:
  - a. Hire a real estate agent and list the property on the open market.
  - b. Sell the property at auction.
  - c. Solicit Requests for Proposals (RFPs) from the public for proposals on how they would develop the property and their proposed purchase price.

# United States Senate

WASHINGTON, DC 20510

September 14, 2020

Mr. Rodney Bartlett  
Town Administrator  
Town of Peterborough  
1 Grove Street  
Peterborough, NH 03458

Dear Mr. Bartlett,

Thanks to you and your team for hosting me at the Peterborough Town Hall for our discussion about the Cold Stone Spring Water Treatment Project. It was reassuring to hear about an innovative and unique project like this moving forward, even in these uncertain times, and I was heartened to see the great collaboration between Peterborough and Jaffrey. Access to clean and abundant sources of water is becoming an issue of concern for many municipalities across our country and that concern will increase over the coming years. I congratulate the Peterborough and Jaffrey team for the foresight to think ahead and take action to secure water sources for your citizens for years to come.

Again, my thanks to you for all of your help with this event. I understand that utilizing funding from all levels of government and private industry can be a complicated situation, and I appreciate your comments about how there must be action to make that process easier. I have shared this with my staff and we will look for ways to do that. Please do not hesitate to contact me if I can be of any assistance to you. I look forward to seeing you again soon.

Sincerely,

Jeanne Shaheen  
United States Senator

Good morning Linda -

We mailed our completed ballots yesterday - Bill by regular first-class mail, I by USPS Priority. Let's see whose ballot gets there first! We'll check on the NH Secretary of State's website.

Thanks for all your help with this -

Libby

Hi Libby.

Glad they made it to you in Denver. Yes, you may elect to return your ballots via USPS Priority Mail. I will keep an eye out for them.

Linda

Good morning Linda -

Our ballots arrived yesterday, Saturday, Oct. 3 - thank you. Our local mail carrier yelled into our open living room window, "Your ballots are here!"

Hurray for our hard-working town clerks, hurray for the USPS, and hurray for our conscientious local mail carriers. It seems the system is working at all ends.

We'll read the directions and will sign and send them back asap. May we send them in a USPS Priority envelope? We would do that to be able to track them through the USPS.

Thanks again, and good luck as you near November 3 and beyond.

Libby,

Your absentee ballot (and Bill's) were mailed out yesterday to your address in Denver. You do not need to get your signatures notarized as NH law currently does not require that we compare signatures. However, please be sure to complete the affidavit envelope when you send back your completed ballot because it is required.

Linda

**Subject:** Absentee Ballots

Good morning Linda -

A few questions about our absentee ballots:

1. when will they be sent out?
2. just to confirm, they will be sent directly to our temporary Denver address? Not to Cheney Avenue (Peterborough) and then forwarded.
3. our signatures have changed slightly since we registered to vote in 2016 (it happens as one gets older apparently!). Shall we get our ballots notarized before we send them in, so there is no confusion or chance that they will be rejected because signatures don't exactly match? If so, can the notary sign the ballot directly or does he/she have to submit a separate letter? If the latter, can this letter go in the ballot envelope? Or is there another procedure to ensure our ballots won't possibly get rejected for signatures?

This is all out of an abundance of caution so that our votes get counted.

Many thanks, as always,  
Libby

**Subject:** RE: Masks/ No masks

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

**Categories:** Select Board

Good morning Susan,

I understand that the overlap between the powers and responsibilities of the elected officials involved here, specifically the Select Board and the Town Clerk, is confusing. The Select Board does take very seriously the health and welfare of all people who must conduct their business in person, as well as the staff who must be here to assist them, and if the Town Clerk believes that she needs additional steps taken, the Select Board will take whatever steps they can to accommodate her needs.

Linda stated in the email she sent to us at 6:26 yesterday evening:

“You can make the change on the website but we cannot require anyone to wear a mask because they may have an underlying health issue and can’t wear one. So far, everyone who has come into my office is wearing a mask and, when they don’t have one, we give them one to wear. I have only encountered two people who could not wear a mask since July 20<sup>th</sup> when my office re-opened to the public.”

In that email Linda raises yet another issue that further complicates the masking issue – assisting customers who cannot wear a mask for medical reasons. Unfortunately there are no simple, perfect solutions to this matter; ultimately the answers always rely on the sense of responsibility on the part of the part of the customer to see it as their duty to take this small step to protect the health of their neighbors.

Thank you for taking the time to express your concerns; please be assured that the Select Board shares them.

-Nicole

**Subject:** Re: Masks/ No masks

Dear Nicole,

This is all rather confusing to me, as I assume we taxpayers are supporting the entire Town House building, and thus assumed the Select Board's policies apply to all the offices and rooms within. I sincerely doubt that the general public understands that the protection offered to other town employees at the Town House is separate from what is offered/ expected in the office of the Town Clerk.

It is especially confusing as I'd read in the local paper that the town administration requested and paid for with town funds, an "investigation" into an event (?) in the Town Clerk's office. That presumes a degree of oversight by the Mr. Bartlett and the Select Board. It also presumes that the town's policies apply to the entire building, including the Town Clerk's office. Further, I assume that the Town Clerk's salary is paid with locally raised taxes; that's fine with me, as she certainly is working very, very hard to provide essential services to the town and all who live here.

And to be clear, I was not asking for the Town Clerk to change anything herself, rather I was requesting that the Select Board require mask wearing for anyone in the building (employees, volunteers, and visitors) as they do for the town Library. That seems reasonable and rather basic, given the present context of an ever-spreading pandemic caused by various strains of CoVid-19.

My concern continues for the health and safety of everyone in the Town House, but especially those who are working there. That is part and parcel of our 'duty to care.'

Sincerely,

Susan Copley

**Subject:** Re: Masks/ No masks

Dear Nicole,  
Thank you for responding to my email (on behalf of the Select Board).

Here are some of the reasons I find your/ their response inadequate:

1) Though you note that “We do require that persons entering the building to conduct business must wear a mask...” actually the policy you have pictured states, “...we ask that you wear a mask...”.  
**There is a world of difference between “requiring” and “asking.”**

Please note that you only photographed an excerpt from whatever document you were sharing; I was unable to find the entire document on the town's website, even on the webpage entitled "How to Conduct Town Clerk Business During COVID-19 Adjustments."

---

2) In the incident I cited, it was clear to me and others near me that the woman who was in line outside the Town House without a mask (and emerged a few minutes later without a mask) was highly unlikely to have put one on when she went inside.

3) How in the world can you/ the Select Board expect that "Once a customer is inside the building it is up to the Town Clerk to require them to wear a mask, and deny service if they do not comply." If I or any of you was trying to stay safe, it would make no sense to get in an argument with a non-mask wearing person [who was trying to drop off her mail-in voting ballot], thus exposing herself and possibly others in her office to a likely outpouring of possible viral-laden air — directed right at the T.C.'s face [I'm not confident that even a modest piece of plexiglass would prevent this from happening in a closed space].

It would also only prolong the transaction, especially if the woman was likely to be argumentative when she was told that mask wearing was "required." If the Town Clerk denied service, or in this case, denied the person the right to drop off her ballot, based on non-compliance, this is just asking for a "scene," especially if the police were called to assist.

4) From what I can see, this is already a very stressful time leading up to the Election, and the Town Clerk deserves our full support rather than adding an additional — and I would contend impossible — set of responsibilities to her workload.

Again, I want to reiterate my support of the Select Board members, and am confident they will actively work to address the issue I initially raised in my email of Oct. 6th (see below). It is of the highest priority we move forward to keep our entire community safe and healthy.

With thanks,

Sincerely,  
Susan Copley

On Oct 9, 2020, at 10:24 AM, Nicole MacStay <[nmacstay@peterboroughnh.gov](mailto:nmacstay@peterboroughnh.gov)> wrote:

Good morning Susan,

I am responding on behalf of the Select Board. We do require that persons entering the building to conduct business must wear a mask, as shown in the attached photo. However, short of stationing a staff person to monitor customers of the Town Clerk's office, we must rely on the good will and sense of responsibility of those customers to wear their masks when standing near to others or as they enter the building. Once a customer is inside the building it is up to the Town Clerk to require them to wear a mask, and deny service if they do not comply.

Yours,  
-Nicole

Good evening Tyler, and thank you for taking the time to reply to my email.

It is relevant to note a short piece in Tuesday's (Oct. 6th) *Monadnock Ledger-Transcript*. That is, under Friday, August 7th, the fourth entry in the Peterborough Police Log (p. 13) reads as follows:

“**Disorderly person:** At 9:58 a.m., ConVal staff reported a parent coming to ConVal for a planning meetings refusing to wear a mask. He had been asked to leave several times but refused to do so. The superintendent requested

PD response. Officers advised the subject that he could be arrested for criminal trespass for refusing to leave when asked, and he left without incident.”

My thought is that if our local ConVal High School requires mask wearing — designed to help protect both staff and students from contracting CoVid-19 — and even called the police to help with the enforcement of this requirement, then as citizens and community leaders we should also expect the Select Board to adopt such a requirement. In my opinion, our employees at the Peterborough Town House deserve this same level of protection.

It would be tempting for the Select Board to respond that there is no way this could be enforced at the Town House, yet the high school manages to do so.

Thank you again for your consideration.

Sincerely,

Susan Copley

Good Morning Susan,

Thank you for your inquiry with the Select Board (SB).

Hearing from our constituents is of great importance to us. We appreciate the feedback and questions. This is what informs our decisions.

In accordance with NH RSA 91-A, the Right to Know law, and due to restrictions on a quorum of the Board deliberating in a non-public, unnoticed forum such as email exchange, we have incorporated the following process.

- All matters of the Town shall be addressed to the [selectboard@peterboroughnh.gov](mailto:selectboard@peterboroughnh.gov) email address.
- Upon review, each Board member will share comments or directives with Town Administration (TA).
- TA will compile a response for each Board member to review.
- With Select Board approval, said response will be forwarded back to you.

- The same process shall take place for all replies.
- Text messages, individual email, phone discussion or social media “comments” shall be considered a non-binding opinion of a Select Board member and not to be considered the official Board response.

We appreciate your patience while we get back to you. Please keep in mind that this is actually a faster way for us to respond without waiting to add your topic of discussion to an upcoming Select Board meeting agenda. It also allows for the inquiry to be efficiently included in an upcoming Consent Agenda / Correspondence segment of a meeting agenda.

M Best,

Tyler

Dear Tyler Ward, Bill Taylor, and Ed Juengst,

Thank you for serving as members of the Select Board and all of its related committees. It’s not an easy job, for sure; hopefully you do find it satisfying and full of new learnings as well.

I'm writing about an experience of concern that I had early this afternoon while waiting in line next to the town house to drop off my "mail in" ballot. The line was fairly long and most people wore masks and were social distancing.

However, there was one woman and a young man, apparently her son of voting age, who did not wear masks. She was on her phone during most of our wait, talking quite loudly and forcefully.

I did ask her if she needed a mask to wear, and she did not respond.

I was concerned as this person was potentially putting those near her (even if social distancing), as well as hard working town employees, at potential risk for contacting CoVid-19. To say the least, this seemed completely unfair and rather selfish.

***Thus I am asking if the Select Board would institute a requirement that everyone who enters the Town House for any purpose must wear an appropriate face mask that is designed to inhibit the spread of the CoVid-19 virus.***

Such an action would be aligned to the language in your mission statement that notes the importance of fostering an environment that supports a sound quality of life for everyone.

Thank you for your service and your consideration of this request; I look forward to your response.

Sincerely,

Susan Copley

Good Evening Loretta,

Thank you for your inquiry.

As you are well aware, with your grasp of NH RSA 91-A, any email correspondence addressed to a quorum of the Select Board is a public document. Therefore, in the interest of transparency, it is included in the Select Board agenda packet under "Consent Agenda: Correspondence". It is as simple as that. We may choose to reply or not depending on the situation and what information may be confidential. Any replies would be included as well.

In my humble opinion (it may or may not be shared by the other Board members), what really "fans flames" in situations where not everyone is privy to all of the information on a matter is the proliferation of rumor and the insinuation that something is being done underhandedly. In my years of service to the Town I have worked tirelessly to be fair and open minded when dealing with issues involving people I know well and care for just the same as someone I've never met. All with the interest in what's best for the Town. I usually learn from people with whom I may have disagreed. I've owned it when I've made a mistake. It should go without saying, but every one of us, whether hired, appointed, elected or volunteering is solely responsible for our own actions. And, collectively, we are all the face of this Town and should always act accordingly.

As for your other concern, in accordance with RSA 91-A:3-II,a and b [*"(a) The dismissal, promotion, or compensation of any public employee or the disciplining of such employee, or the investigation of any charges against him or her, unless the employee affected (1) has a right to a meeting and (2) requests that the meeting be open, in which case the request shall be granted."* *"(b) The hiring of any person as a public employee."*] and the right to consult privately with Town Counsel, your duly elected Select Board (including Ed Juengst, appointed via RSA 669:63) has met in non public meeting to fulfill our responsibilities to Our Town regarding Budget effects, reorganization and employee compensation. There are many factors to consider during the transition of Administrative positions.

Rest assured, your persistent and sometimes redundant requests are not being ignored. The Board has a preponderance of issues with which to deal. It is unfortunate that you are disappointed. We appreciate our constituents' patience while we all navigate these challenging times.

My Best,

Tyler

On Sat, Oct 3, 2020 at 11:26 AM Loretta Laurenitis <[lboulaur@yahoo.com](mailto:lboulaur@yahoo.com)> wrote:

Dear Tyler, Bill, and Ed,

I have a quick question about why the SB packet includes a letter from a Jaffrey resident regarding our Town Clerk when this person clearly states that their response is "Due to the **reported** disregard ....." Therefore, this person's comments are not because of any direct personal knowledge or personal interaction, but instead are a reaction to something that was **reported** (in the paper? by a neighbor? how?). So what is the purpose of including this letter? It only seems to keep fanning the flames of the Town's fiasco regarding the administration's handling of the Town Clerk matter, as well as undermining our Town Clerk and her reputation. I hope you will withdraw that letter from the packet and encourage us all to move on from this matter. There are certainly more pressing Town and national issues that require our attention and energy.

One of those more pressing issues is the hiring of a replacement for Rodney. I am disappointed that the SB has continued to ignore my requests for a public discussion of the process for hiring a new Town Administrator.

Respectfully,

Loretta Laurenitis
