

## Open Space report 2019

The Open Space Committee is charged with seeking opportunities to assist landowners in conserving their land.

2019 was a major success in conservation as we assisted the Monadnock Conservancy in protecting over 100 acres on the south east side of Cunningham Pond. This activity was initiated by local landowners and consisted of individual fund raisers, a contribution of \$250,000 from the Peterborough Land Conservation Capital Reserve Fund, and funding from the Monadnock Conservancy.

This land is across the pond from the town Beach and includes walking trails and a new parking lot. It will be appreciated for years to come.

We have no timeline for the next conservation event.
