

**Open Space Committee / Minutes of November 10, 2014 Meeting  
5 p.m. Peterborough Town House**

Present: Debby Kaiser, Francie Von Mertens; Anne Huberman, Joel Huberman

**Committee roles**

Discussion focused on possible roles Anne Huberman and Joel Huberman could take on as members of the Committee eager to learn about land conservation but lacking much direct experience.

Debby Kaiser gave assurances that the process for her has been a learning one, and that opportunities to learn are many through an active land trust community as well as committee members with experience.

It was agreed that the OSC's lack of an Internet/Web presence and the Hubermans' relevant IT skills could be an area of contribution as well as a good learning opportunity about land conservation.

Next steps: mapping out OSC Web presence including intended audiences and content for each; determining/confirming that a Web presence would be easily accessed on the town's Web site.

**Annual letter to landowner**

Von Mertens will work up the (almost) annual letter to owners of significant natural resource properties in town that features the recent Hiroshi Hayashi addition to town conservation land.
